HAWKEYE

INSURANCE

COMPANY,

DES MOINES, STATE OF IOWA

Assets January 1, 1888, Over \$700,000.

This Company, organized March 13, 1865, has done more business, paid more Losses, has a larger surplus over all Liabilities, and a larger Surplus and Capital than any Iowa Company.

Office in Company's Building, 207 and 209 West Fourth Street.

CYRUS KIRK, Secretary.

F. M. HUBBELL, President.

THE EQUITABLE Life Insurance Company OF IOWA.

ORGANIZED IN 1867.

Assets, - \$620,341.57 Surplus, - \$168,032.75

*On Deposit December 31, 1887, with Auditor of State to secure
Policy-Holders, \$482,715.41.*

The Equitable is an Iowa Co.

Its Policies are liberal and Modern, affording both protection and investment and are secured by a deposit of securities with the State of Iowa, as required by law, a security as absolute as that securing National Bank notes.

Its rate of Interest earned is higher, its rate of mortality since organization lower, and its dividends larger than those of any Eastern Company.

GOOD ACTIVE ENERGETIC AGENTS WANTED.

With whom liberal contracts will be made. Don't wait until the territory you want is taken, but apply at once.

THE CALIGRAPH.

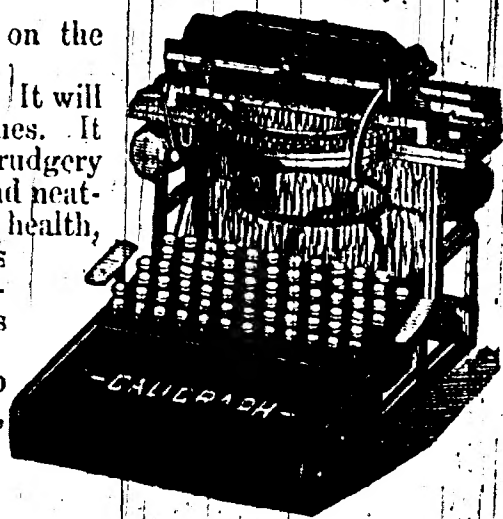

IT STANDS AT THE HEAD:

Those wishing the best writing machine on the market will do well to try the CALIGRAPH.

It is a machine to take the place of the pen. It will do all the pen can, except making useless flourishes. It fills the want of the age in doing away with the drudgery of writing, secures legibility, speed, accuracy, and neatness. It saves the writer's and reader's time, health, eyes, patience, and paper. It will write four times as fast as the average penman. It condenses matter to half the space occupied by pen-writing. It is cheap, portable, durable, and ornamental. Every body needs it. Any one can use it. There are no others equal to it. Send for Circulars. Address,

JENNINGS & CHAPMAN, Agts.,

Des Moines, Iowa.

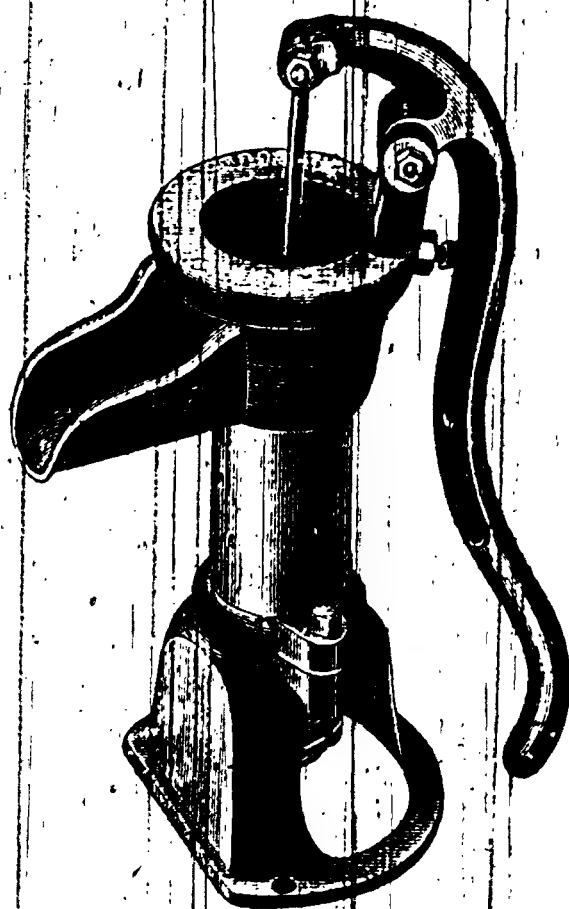

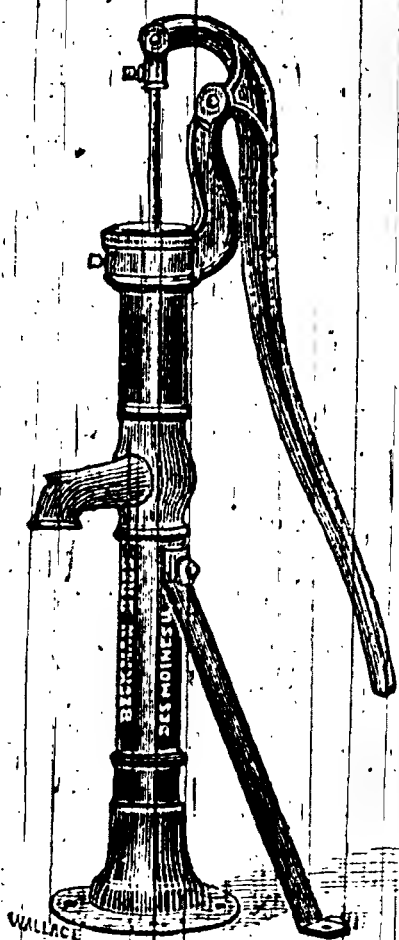

WANTED.—Agents in every town in Guthrie, Dallas, Polk, Jasper, Poweshiek, Adair, Madison, Warren, Marion, and Mahaska counties to sell the Caligraph. A liberal commission will be allowed and no risk to be run. For full particulars address

TREASURER,

GILBERT B. PRAY, Clerk Supreme Court.

MEDICAL DIRECTOR,
JAMES T. PRIESTLEY, M. D.

ITS new policies have a cash or insurance surrender value any time after two annual premiums are paid. Its new policies are non-forfeitable after two years, and there is no restriction to travel, residence or occupation after two years, and the policy is incontestable after three years.

Life, Term and Endowment Policies, the most approved forms.

On Term Policies at the end of term the insured has several options.

FIRST, he may take a paid-up policy for the original amount, and his entire surplus in cash.

SECOND, he may take his entire reserve (4 per cent, actuary's table) in cash together with his surplus, *a practical endowment*, Or

THIRD, he may take a paid-up policy for the original amount and as much additional insurance as his surplus will purchase at a single payment.

FOURTH, take paid-up policy for original amount and buy a life annuity with the surplus.

FIFTH, convert the entire cash value of the policy into an annuity for life.

In 1887 this company made a gain in business surpassing the expectation of its friends and surprising its competitors.

1888 starts out still better. Its expenses are minimum and business maximum.

All policies secured by deposit of net value with State of Iowa, Auditor's office, in non-perishable securities (See Chapter 169, Laws Twenty-first General Assembly.) Only State in the Union requiring this security.

Agents Wanted! Splendid Territory! Good Commissions, affording a liberal income to energetic men.

CALLANAN COLLEGE,

1110 West Pleasant Street.

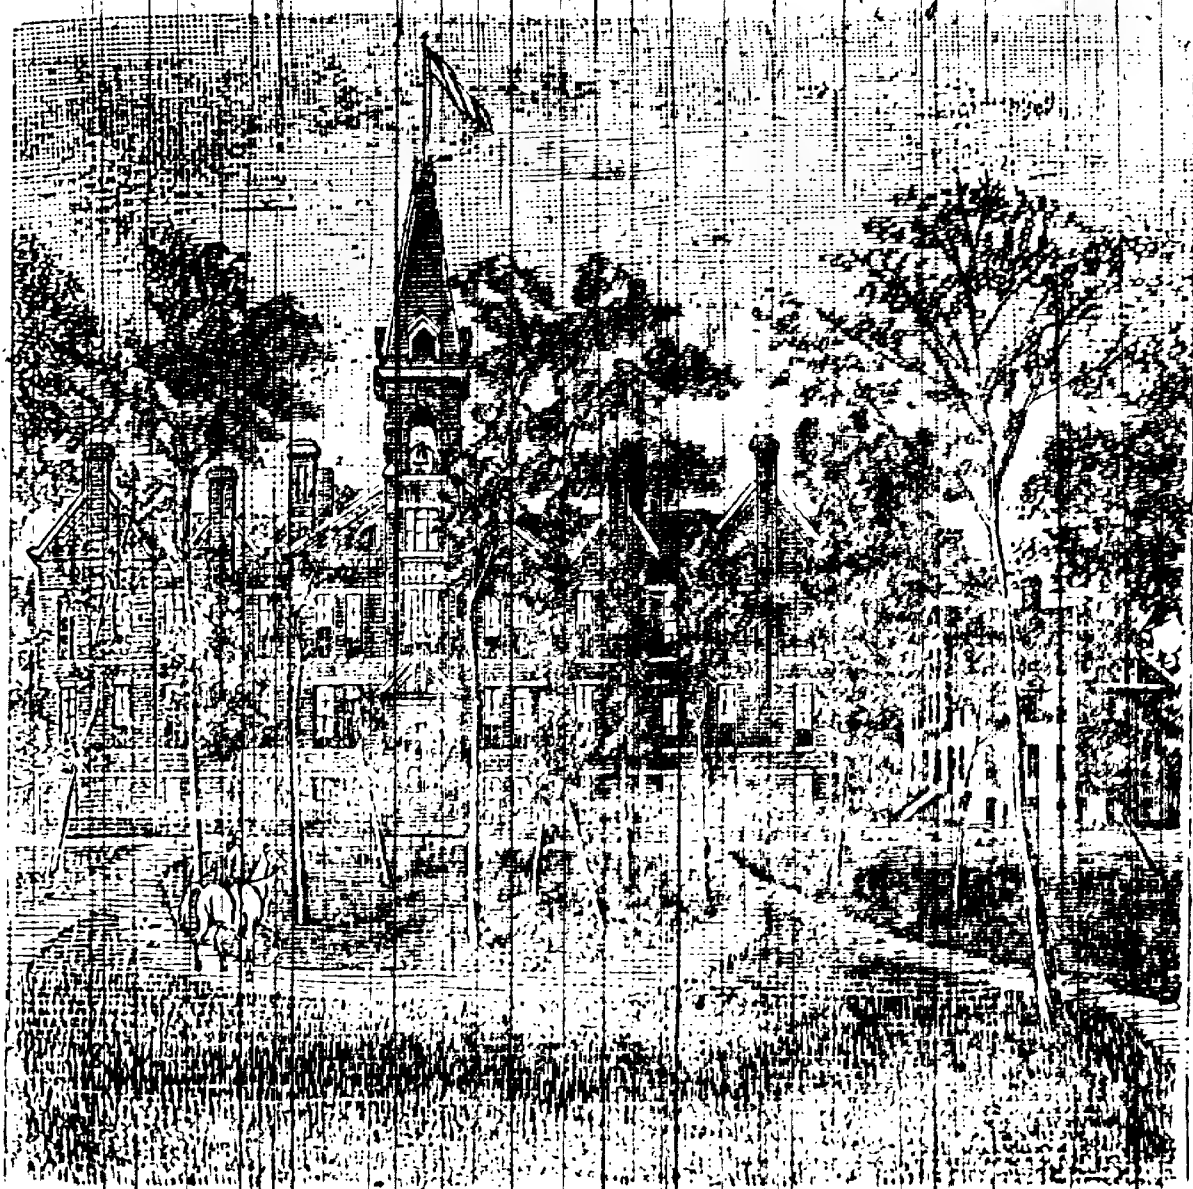

Through the liberality of Mr. Jas. Callanam, this institute is now one of the circle of colleges, comprised in Drake University.

Besides the Normal School, which will be wholly in this College, and be made especially strong.

Commercial, Musical and Art courses will also be maintained here, as well as at the main University building, and all will be in charge of unusually efficient instructors.

Special announcements will be made for the Colleges of Law and Medicine.

Address J. W. AKERS, Pres., or
G. T. CARPENTER, Chancellor.

Drake University,

UNIVERSITY PLACE.

This Institution occupies one of the most beautiful and healthful location to be found anywhere. The surrounding community is noted for its morality, refinement, and sociability. For vigorous and successful management, thoroughness of instruction and variety of courses of study, it is unequalled in the West.

CALLANAN COLLEGE, by the act of its generous founder, is now one of the Colleges composing the University. The principal Departments or Colleges now in operation are the Literary, Normal, Law, Medical, Theological, Musical, Commercial and Art. These employ about FIFTY able and experienced Teachers.

For catalogues or special information, address any department, or

THE WELL-KNOWN AND POPULAR NATIONAL SERIES OF STANDARD SCHOOL & COLLEGE TEXT-BOOKS.

The series of school books known and popularly used in every section of the United States, and every class of citizens, representing all shades of political opinion and religious belief.

The series is complete, covering every variety and grade of science and literature, from the Primer which guides the lisping tongue of the infant, to the learned "West Point Course."

The series is uniformly excellent. Each volume, among so many, maintains its own standard of merit, and assists, in its place, to round the perfect whole.

It is the pride of the publisher that their imprint appears in not a single poor or even indifferent text book. Its appearance, therefore, upon a title page is a sort of guarantee which the educational public have learned to respect.

For these reasons, this series has been justly denominated the

National Series of Standard School Books.

A title which is now universally conceded in its broadest sense, and which cannot, with equal propriety, be applied to any rival series whatsoever.

The National series comprises more than three hundred publications, representing text-books adapted to every grade of common schools and college classes. Specimen pages sent free of cost to any address. Descriptive Catalogue free.

ADVANTAGES OVER ALL OTHER ROASTERS.

- 1 It is cheap.
- 2 It is more durable.
- 3 It is simple and any one can run it.
- 4 It uses less fuel.
- 5 It is less trouble and does not require so much attention.
- 6 It will not get out of repair so easy.
- 7 It is lighter and can be run in and out of doors much easier, going through an ordinary door.
- 8 Any boy can operate it just as well as a good engineer can operate a steam roaster.
- 9 You can use it in winter and no water pipes to freeze up and burst.
- 10 No boiler to clean out every week or so.
- 11 It having a more perfect burner than any other, will not make an odor in the room.
- 12 It is the most perfect warmer made.
- 13 A warranty accompanies every machine.

IOWA'S GREAT INVENTION.

THE *Tibbles* * *Sewing* * *Machine*

Is the only machine ever produced, which will feed the work to or from the operator at will, without making any change in the mechanical devices, thus enabling the operator to fasten ends or make double seams without turning the material, as must be done with all other machines.

This Machine is Entirely Original in Every Respect. makes a perfect elastic lock stitch, is artistic and pleasing in design, beautifully finished, almost absolutely noiseless, and is the lightest running machine ever constructed.

The great number of "Tibbles" machines sold in Des Moines during the last two years proves that Iowa people patronize home inventions, and that

THE TIBBLES STAND AT THE HEAD.

Mr. Tibbles, the inventor of this machine, has been in the sewing machine business in this state for twenty five years, and knows how to make a machine that pleases all who use it.

The names of any number of persons who are using the "Tibbles" will be furnished at our office

INTRODUCTION.

The Publishers in presenting this their Twelfth Directory of Des Moines feel assured that it will prove to be the most complete reference work of the city yet published.

It contains a complete resident and business directory of Des Moines, and all her suburban adjoining towns; a street, church, school and society directory; a full list of the institutions of the State; a review of the varied interests of Des Moines in all her resources, making it a complete reference work of our rapidly growing city; a concise sketch of the city's progress and prosperity, to which the attention of those unacquainted with the superior advantages now offered here, of capitalists and manufacturers, is especially invited; a list of the leading enterprising business houses; also it contains a complete post office directory of Iowa.

The result of our very careful canvass shows there are in Des Moines and suburban additions 14,672 families, which being multiplied by $3\frac{1}{2}$, the average per family as per last census, gives us a population of 51,350, a gain of 8,597 since the publication of the last directory two years ago. The gratifying view which this directory presents of the substantial growth of Des Moines, must be appreciated by all her enterprising citizens and a surprise to some of her oldest inhabitants. The very decided progress in the way of solid and substantial improvements insures the prosperity and growth of Des Moines for the future.

To the business men through whose liberal patronage we have been enabled to publish so complete a directory we return our thanks and trust they will be amply repaid by an increased patronage in their several branches of business, trades and professions.

THE PUBLISHERS.

DES MOINES.

THE GREAT RAILROAD CENTER OF THE NORTHWEST.

A NATURAL SITE FOR A GREAT COMMERCIAL AND MANUFACTURING CITY.
HER RESOURCES, PROGRESS, PROSPERITY, ADVANTAGES AND INDUCEMENTS TO CAPITALISTS. THE SAFEST FIELD FOR INVESTMENT.
IN THE WEST, SOCIAL, MORAL AND EDUCATIONAL ADVANTAGES, ATTRACTIONS AS A HOME, ETC.

LOCATION.

Des Moines possesses ample facilities for the prosecution of all kinds of industrial business, and we would respectfully invite attention to the many advantages it affords, as well as to its attractiveness as a home. It is situated near the center of the state, has been fitly chosen as the capital, and is the metropolis of our great and growing commonwealth. Thousands are locating here annually for permanent homes, because of our healthful climate, beauty of location, our social, moral and educational advantages, and to all who are seeking new homes for health, wealth or pleasure, we say confidently that no portion of this or any other country offers greater inducements, and to all such we extend a hearty welcome.

POPULATION.

The population as shown by the census returns indicate that there were in 1850, 502; 1855, 2,278; 1860, 3,965; 1865, 5,722; 1870, 12,035; 1875, 15,782; 1880, 22,699; in June, 1885, 35,500, and to day we claim as shown by the enumeration January 1st, 1888 it has 51,350 and the next census will undoubtedly show our population to be between 75,000 and 100,000. Thus the growth has been very satisfactory, while business blocks and residences have sprung up on every hand as if by magic, and it is doubtful if any city of the same population anywhere can present such an array of figures as those denoting the growth of Des Moines.

RAILROADS.

Des Moines has more railroads than any other city of the same population in the Union, having fifteen lines with ninety passenger trains per day. These roads radiate in every direction connecting the city not only with every county in Iowa, but, by connecting the

with the entire country. The following lines of road enter Des Moines: Chicago, Rock Island & Pacific; Chicago, Burlington & Quincy; Chicago & Northwestern; Chicago, Milwaukee & St. Paul; Wabash, St. Louis & Pacific; Chicago, St. Paul & Kansas City; Minneapolis & St. Louis; Des Moines & Ft. Dodge; Keokuk & Des Moines; Des Moines, Indianapolis & Missouri; Des Moines, Winterset & Southwestern; Des Moines & Kansas City; Des Moines Northwestern; St. Louis, Des Moines & Northern, and Des Moines, Keokuk & Southern. The facilities which this system gives to wholesale interests, manufacturing, coal mining, lumber, stock and grain shipments are unexcelled, and our citizens appreciate the great benefits derived from our railroads, and the fact that they have been indispensable agencies in the development of the city, which extends its trade hundreds of miles in every direction, opening many new and rich portions of the country, all tributary to the trade and commerce of our city. Being thus a railroad and commercial center the city has naturally become the center of immense wholesale trade, which is rapidly increasing.

MANUFACTURING AND JOBBING INTERESTS.

Des Moines is especially calculated for a great manufacturing city. Here fuel is cheap with abundance of coal and wood, and we have good water power, which if utilized, would turn thousands of wheels. With all these advantages this is undoubtedly the best point in the West to locate industries of all kinds, and those manufacturers who will investigate the matter now and establish themselves here soon, will be the ones to profit most by the opportunities here offered, as Des Moines is far removed from any overshadowing city, being 358 miles west of Chicago and 366 miles northwest of St. Louis, there being no city even approaching it in size or commercial importance within 150 miles. The business rests on a solid, healthful basis, and our manufacturers and wholesale dealers are not afraid to do business with Chicago, St. Louis, or eastern cities. The immense trade that centers here is supported by the country for hundreds of miles in extent, reaching out into the territories beyond. No city west of Chicago has as good railroad facilities, and the large business transacted by the factories and wholesale houses here, proves that Des Moines is the place for such enterprises.

View the growth which Des Moines has made in the last few years, the trade not only of Iowa, but of the entire northwest tributary to wholesaling goods and distributing manufactured products, our city is to-day the best commercial point in the west. The whole commerce in 1887 was \$26,551,860. The manufacturing in 1887 was \$11,455,200, and in improvement, for 1907, amounted to \$1

mines are located in or adjacent to the city, doing business here at the present time. Coal for manufacturing purposes costs about 50 cents, and for grate and furnace use from \$1.50 to \$2.50 per ton. Manufacturers, if they choose, can build their works on land underlain with coal, and thus obtain their fuel for manufacturing purposes at the mere cost of mining. Natural gas has been discovered in the vicinity of Des Moines in sufficient quantities to warrant the belief that in the near future we shall have it in the city in abundance for all purposes. Des Moines has abundant deposits of all varieties of clay adapted to the manufacture of the best of pressed brick, fire brick and brick for building or paving; also the finest quantity of potters' clay, and clay suitable for mineral paint and for the manufacture of porcelain. Building material is abundant and cheap. Mineral springs are found, yielding pure, soft water with agreeable, health-giving properties.

REAL ESTATE.

There are special inducements to investors to acquire property here now, which will increase in value very rapidly and can now be had for prices low enough, and money expended in lots in the Lowell of Iowa will return ere long with good profit. There are numerous inviting sites for residences, surrounded by native groves, and overlooking the adjacent country and business portion of the city, and residence lots, though in good demand, can be obtained at reasonable rates, as well as lots for business or manufacturing purposes. Some of our real estate dealers are making special inducements to parties desiring to establish factories, offering land in most desirable localities, at very low rates, and even donating excellent sites for important industries. Real estate, though always a profitable investment, has but kept pace with her growth, and today both residence and business property may be had at prices that cannot fail to richly remunerate the investor, for the wonderful and continuous growth of the city insures a rapid increase in values.

NEWSPAPERS.

Our newspapers, have by their enterprise, attained to an eminence in the journalistic world such as to impress the stranger visiting our city, or wherever they are received, with the importance and wonderful progress of Des Moines, and have been active in disseminating information of the superior advantages our city possesses. They include four daily, twenty weekly and nine monthly publications.

BANKS.

Des Moines has a solid financial status, and comparative statements rank us far in advance of any other city in the West, of the

deposit for the merchandise, business men and mechanics, of our city, and the business men in the counties of central Iowa. Eastern exchange sold by Des Moines banks amounts to millions annually. The combined banking capital of the city aggregates over \$3,000,000.

HOME INSURANCE COMPANIES.

Des Moines may well be styled the Hartford of the West, in the number of insurance companies established here. The position occupied by these companies is such that in describing the financial advantages of this city, we should mention these institutions, which have contributed so largely to the solvency and solidity of our mercantile enterprises, affording that protection and security guaranteed only by the most reliable organizations of this character. These companies, fourteen in number, including fire, life and accident, and one live stock, collected in premiums, during 1887, \$1,750,000.

HOTELS.

The numerous and excellent hotels of Des Moines, are noted for their excellence in all those essentials which pertain to first-class accommodations. The leading houses are furnished in elegant style, the cuisine is unexceptionable, while the locations, accessibility and general management have given them a reputation and popularity second to none in the West.

CHURCHES.

The churches of Des Moines number fifty many of which are strong in members, wealth and influence. Nearly all these churches have their own houses of worship, many of them being fine, commodious buildings of great architectural beauty, whose interior finish and furnishings are refined and elegant.

EDUCATIONAL ADVANTAGES.

Our educational facilities are a matter of pride and pleasure to our citizens, and with our colleges, our excellent system of public schools, our commercial, law, medical, musical and art schools, it would seem that one might obtain an education which would fit him for almost any department of business or professional life. There has been a special endeavor on the part of our citizens to make the schools of Des Moines worthy the evident future of the city, and the success attained is a matter of gratification.

AS A HOME.

The city, when compared with others of the West, is spoken of as most desirable one in which to live, as great attention is paid to culture and refinement. The statistics in comparison with cities of the same population, or with the leading cities of our own State, show a

much smaller number of arrests for vagrancy and drunkenness, which speaks well for the morality as well as the industry of our people. One very significant fact which adds to the credit of Des Moines is that we have more families in circumstances of comfort than any city of the same population, and statistics show that we have less pauperism.

PUBLIC IMPROVEMENTS.

Des Moines has 15 miles of cedar block paving; 20 miles of stone curbing; 20 of sewer ing; 25 miles of street railway; 45 miles of water mains; 50 miles of gas mains; arc electric light (200 consumers); Edison incandescent light (500 consumers); telephone (750 patrons); district telegraph; 3 opera houses; fire department, with central and suburban stations; 7 wagon and 5 railway bridges across the Des Moines and Raccoon rivers; handsome churches; modern school buildings, etc.

OUR NEEDS.

Des Moines' greatest need to-day is more capital and skilled labor, and the hearty co-operation and well-directed energy of all her citizens which will secure this, to utilize her unsurpassed resources; and we are glad to see that efforts are being made now to secure the industries we so much need. We must bring the attention of eastern capitalists to Des Moines as a promising field for investment, not only in industrial enterprises but in real estate; and our natural advantages, excellent transportation facilities, inexhaustible supply of cheap fuel should be more thoroughly advertised to the world. Although Des Moines has a large number of factories in successful operation, engaged in the manufacture of a variety of products, yet there is room for many more industries in various branches of manufacture. Des Moines wants more factories and wholesale business houses, and is anxious to have the excellent opportunities utilized, when the beneficial results are so apparent. Those who locate in this city, are not dependent upon the present trade, favorable as it may be, but are establishing a business which must expand year by year as the country tributary grows in wealth and population.

INFORMATION FURNISHED.

Letters are being received making inquiries in regard to our resources and advantages, and the facilities for manufacturing and wholesale business, while persons are visiting the city, looking over the ground with a view to establishing factories or business, or to making real estate investments.

We invite parties who are looking for new homes or business locations, to visit Des Moines before deciding, with the assurance that they will be cordially welcomed and every facility afforded for investigating the superior advantages which our city possesses. The fullest information, regarding our advantages, will be furnished by addressing the Des Moines Board of Trade, the Commercial Exchange, or the Real Estate and Stock Exchange.

City, County and State Officers.

CITY GOVERNMENT.

CITY OFFICERS.

W L Carpenter, mayor; Geo W Shope, treasurer; J M Laird, auditor; I A Hammer, clerk; Thomas Burke, police judge; W C McCord, police clerk; Alfred Jarvis, marshal and ex-office chief of police; Patrick Burns, dep mar; Geo Morgan, cap police; Chas Bennett, engineer, B Schreiner, ass't eng; J H Detrick, solicitor; Hugh Brennan, ass't sol'r; R C Johnson, ch'f fire dep; P Lynch, ass't chief; S Riggs street com, T M Knight, sidewalk com; Philip Nau, market master, R M Thompson, License collector; W J Latta, M D, city physician.

COUNCILMAN. — President *pro tem*, J C Macy; at large, Chas Weitz, Des Moines tp, at large, Adam Baker, Lee township; 1st Ward, M Drady; 2nd Ward, J C Macy; 3rd Ward, Geo W Sheldon; 4th Ward, Frank T Morris; 5th Ward, L Bolton; 6th Ward, M H King; 7th Ward, Mark Egan.

STANDING COMMITTEES.

Ways and means: Macy, King and Sheldon.
Claims: Drady, Egan and Weitz.
Judiciary: Macy, Baker and Sheldon.
Streets and alleys: Baker, Egan and Sheldon.

IOWA IMMIGRATION BUREAU.

J P Bushnell state commissioner, R A Givens secretary. A county commissioner for each of the counties, and a correspondent in each of the principal cities and towns of the state.

A record of the resources and advantages of all the counties of the state, information for those seeking new homes or business locations in the west.

Many inquiries are being received, with reference to new locations for the establishment of various industries, and what these parties want, especially, is to know the resources and advantages of the different counties, and the inducements offered by the various towns of Iowa for all kinds of agricultural and mechanical pursuits, and desirability as a home. In order that the information desired may be furnished, and in order to inform all parts of the state as to these inquiries, we have established the Iowa Immigration Bureau. The objects are to invite immigration, promote industrial enterprises, and encourage every laudable undertaking calculated to develop our material interests. The Bureau will co-operate with the various Boards of Trade, Citizens, and Real Estate Associations also county, city and town officers of our state, and all enterprising bodies interested in the development of the vast and varied resources of Iowa.

A HAND BOOK OF USEFUL INFORMATION OF IOWA, will be compiled and published as soon as full information of the resources and advantages of all our counties is secured. For the information of those looking for new homes in the west it will be important; also, to us as a state, that all learn the fact, that Iowa is the most inviting field for the capitalist or home-seeker. General office, 125 west Fourth street.

DES MOINES POST OFFICE.

The Mutual Benefit Life Insurance Co.,

OF NEWARK, N. J.

Paid Policyholders since Organization in 1845. \$97,539,084.01.

The Mutual Benefit Company is conspicuous for its economical management, for the magnitude of its dividends, for the liberality of its Policy Contract, and for its fair dealing with its members. No policy can be forfeited after the second year as long as any value remains to continue the insurance. Losses are paid immediately on completion and approval of proofs; and in all essential features a Policy in the Mutual Benefit offers advantages equal if not superior to those of any other Company.

Mutual Benefit Life Insurance Company

OF NEWARK, N. J.

AMZE DODD, President,

Assets, January 1, 1888, \$42,111,233.33

The record of the company for the past 43 years, taken together with the unequalled liberality of its Policy Contract, and its unsurpassed reputation for fair dealing with its members, proves that the Mutual Benefit furnishes the best insurance at the lowest cost price.

WHY SHOULD I INSURE

—IN THE—

Washington

Life Insurance Company?

BECAUSE it is one of the old and tried Companies.

BECAUSE it increased its Assets and Surplus during the recent financial depression, while increasing the dividends paid to its policy-holders.

BECAUSE the New York State Insurance Department certify to its management by "able and honorable" men.

BECAUSE its actual investments (excellent in character) exceed its gross liabilities.

BECAUSE every policy provides for a definite amount of paid-up insurance as a surrender value.

BECAUSE its policy is a plain, easily understood contract; liberal in its features, and free from those objectionable conditions that taint the policies of so many leading companies.

BECAUSE it is the only company that secures the full benefit of its dividends to its policy-holders, keeping the policy in full force by its dividends.

BECAUSE the policies of the Washington are paid immediately upon satisfactory proofs of Death.

INDEPENDENCE, IA., NOV. 25.—M. T. V. Bowman, Esq., General Agent Washington Life Insurance Co., Des Moines, Iowa:

DEAR SIR: Your favor of the 23d inst., brings to hand a New York Check for three thousand dollars (\$3,000) as settlement in full of policy No. 55,403, issued upon the life of Rev. Clayton E. Higgins, March 22, 1887,

Permit me to make personal acknowledgement of the courteous assistance rendered by you individually in making settlement of this matter while on behalf of the assured, Mrs. E. R. Higgins, mother of the deceased, I return to your company earnest thanks for the unusual promptness which places in her hands within eight days after mailing proofs of death, the entire sum to which she is entitled. Not only has the company acted without resort to dilatory technicalities, but has also failed to claim the 'sixty days' delay to which its contract entitled it.

Respectfully,
GEO. B. WARNE.

M. T. V. BOWMAN, General Agent,

Washington Life Insurance Co.,

CAPITAL CITY GAS LIGHT CO.,

MANUFACTURERS AND JOBBERS OF

Coke, and Coal Tar,

—AND DEALERS IN—

GAS COOKING AND HEATING STOVES.

These stoves are constructed especially to meet the requirements of domestic economy. Economical and inexpensive cooking is obtained by the simple method of every particle of heat derived from the gas.

A family dinner can be cooked without the aid of any other appliance. The various processes of Roasting, Baking, Boiling, Grilling, or Toasting can all be carried on, and each process can be regulated to the greatest nicety by the adjustment with which each stove is fitted.

These stoves have been submitted to every possible test, and can be there fore cleanly, economic, certain and efficient manner, and no one, unless previously informed, would have the least idea that joints roasted by these reflecting Gas Stoves were not cooked before a coal fire.

All ordinary culinary utensils can be used in cooking that have a flat bottom.

For Sale by Capital City Gas Light Co.,

CAPITAL CITY GAS LIGHT CO.,

MANUFACTURERS AND JOBBERS OF

Coke and Coal Tar,

—AND DEALERS IN—

GAS COOKING AND HEATING STOVES.

These stoves are constructed especially to meet the requirements of domestic economy. Economical and inexpensive cooking is obtained by the simple method of every particle of heat derived from the gas.

A family dinner can be cooked without the aid of any other appliance. The various processes of Roasting, Baking, Boiling, Grilling, or Toasting can all be carried on; and each process can be regulated to the greatest nicety by the adjustment with which each stove is fitted.

These stoves have been submitted to every possible test, and can be there fore cleanly, economic, certain and efficient manner, and no one, unless previously informed, would have the least idea that joints roasted by these reflecting Gas Stoves were not cooked before a coal fire.

All ordinary culinary utensils can be used in cooking that have a flat bottom.

For Sale by Capital City Gas Light Co.,

Iowa Seeds For Iowa People.

IOWA SEED COMPANY,

Have this year a larger and better stock than ever before of Choice Tested

IOWA SEEDS,

Plants, Bulbs, Seed Potatoes, Horticultural Implements,
The Noted Strowbridge Broadcast Sower,
FLOWER POTS, BERRY BOXES, GARDEN TOOLS AND

Everything Pertaining to the Business.

As our business has required each year a larger amount of seeds to supply the growing demand for IOWA SEEDS, the facilities for growing and securing seeds have also been largely increased, which enables us to offer to you the largest and best stock of seeds in Iowa.

Our New Catalogue Free to All.

	\$379,346.04		\$379,346.04

The BANKERS LIFE ASSOCIATION "has come to stay."

The accumulation of its first **HUNDRED THOUSAND** Dollars of **GUARANTEE FUND** was simply a pointer to the fact, that at an early date it would show its present possession of **Three Hundred and Sixty-Five Thousand** Dollars, pledged by the holders of **Ten Thousand** Certificates of Membership for the payment of their obligations to the families of each other.

The confidence thus manifested in the system, simply means a prospective **Million Dollars** of Guarantees in the near future, with a membership in proportion; accumulated in the healthy regions of the North, among commercial and professional men, whose circumstances are such that they can secure necessary rest and recuperation; to a Mere Fraction of the Current Price with Stock Companies.

Careful men will examine the plan and Patronize This Association if They Like It.

Send name, age, occupation and Bank Reference, and get an Estimate.

WILSON F E, 306 and 308 w Court av**A MAN**UNACQUAINTED WITH THE GEOGRAPHY OF THE COUNTRY WILL
OBTAIN MUCH INFORMATION FROM A STUDY OF THIS MAP OF THE**CHICAGO, ROCK ISLAND & PACIFIC R'Y**

Its main lines and branches include CHICAGO, GEORGIA, MOLINE, ROCK ISLAND, DAVENPORT, DES MOINES, COUNCIL BLUFFS, MUSCATINE, KANSAS CITY, ST. JOSEPH, LEAVENWORTH, ATCHISON, CEDAR RAPIDS, WATERLOO, MINNEAPOLIS, and ST. PAUL, and scores of intermediate cities. Choice of routes to and from the Pacific Coast. All transfers in Union depots. Fast trains of Fine Day Coaches, elegant Dining Cars, magnificent Pullman Palace Sleepers, and (between Chicago, St. Joseph, Atchison and Kansas City) Reclining Chair Cars, Seats Free, to holders of through first class tickets.

Chicago, Kansas & Nebraska R'y
"Great Rock Island Route."

Extends West and Southwest from Kansas City and St. Joseph to NELSON, HORTON, BELLEVILLE, TOPEKA, HERINGTON, WICHITA, HUTCHINSON, CALDWELL, and all points in

KANSAS AND SOUTHERN NEBRASKA and beyond. Entire passenger equipment of the celebrated Pullman manufacture. All safety appliances and modern improvements.

The Famous Albert Lea Route

Is the favorite between Chicago, Rock Island, Atchison, Kansas City and Minneapolis and St. Paul. Its Watertown branch traverses the great

"WHEAT AND DAIRY BELT"

of Northern Iowa, Southwestern Minnesota, and East Central Dakota to Watertown, Spirit Lake, Sioux Falls and many other towns and cities.

The Short Line via Seneca and Kankakee offers superior facilities to travel to and from Indianapolis, Cincinnati and other Southern points.

A. D. COTTON, President,

O. C. KNEALE, Secretary,

H. H. ALLEN, State Agent for Iowa.

NATIONAL BUILDING, LOAN AND PROTECTIVE UNION Of Minneapolis, Minnesota.

DES MOINES BRANCH:

WESLEY REDHEAD, President,

W. A. PARK, Vice-President,

GEO. A. DISSMORE, Treasurer,

A. E. ASHBROOK, Secretary,

DIRECTORS—W. A. Park, A. M. York, Geo. S. Redhead, J. S. McCaughan,
Geo. Burley.

THE BUILDING AND LOAN ASSOCIATION IS THE ROAD TO WEALTH.

There is no royal road to wealth for the majority of mankind.

To labor and to save is a maxim universally conceded to that true policy. It is necessary to labor with diligence, live with frugality and save with judgment in order that men with moderate incomes may in due time become independent of labor as absolutely necessary to supply the wants of life.

Having so labored, lived and saved, how shall the savings be invested and cared for? They must be secured for the present days, weeks, months and years of life, and to lose them is to jeopardize the well being of family dearer to the properly constituted man than the comforts of his own life; they must earn and return gains and profits for the owner, else the day of Independence is long deferred. We point to the Building and Loan Association, the surest and safest form of investment as known for many reasons.

It is perfectly Democratic. Every member of any Association under the Building and Loan System is admitted to a full, free and constant insight of its workings and management. It incurs no liabilities beyond its own members and is therefore safe.

It is purely mutual. Its benefits are distributed equitably among all its members, to each his portion of the profits and gains.

It is liberal in its returns. There is no preferred class to absorb the profits; no large sinking fund to create; capitalists cannot come in and overpower the weaker members.

It affords protection to the family by enabling its member to secure homes, paid for in a great measure by money that would otherwise be paid for rent. In short, it is a system "of the people, for the people and by the people."

It is in the interest of better citizenship; it encourages economy; teaches thrift; fosters forethought and stability. The principles involved have been tested; there are hundreds of Building and Loan Associations throughout the country operating under the Building and Loan System, many of which differ somewhat in plan; thousands of happy homes have been reared and maintained through the aid and opportunities offered by such institutions.

For further information address, A. E. ASHBROOK Sec'y,

120 WEST FOURTH STREET.

"Aut Optimus aut Nihil."

Tibbles Manufacturing Company,

MANUFACTURERS OF THE
TIBBLES SEWING MACHINE.

Des Moines, - Iowa,

To The Public:

The Tibbles Sewing Machine is the only machine ever produced in which the manufacturers prove their implicit confidence in its simplicity, ease of management, and superior qualities, by sending it out to their customers without an instruction book. Any one can successfully operate "The Tibbles" without trouble or loss of time.

The Needle is positively self-setting, which renders it impossible to set it in correctly. This is a new invention, and is a great improvement over any machine heretofore made.

The new shuttle is self-threading and cannot be threaded inaccurately, and its tension is governed in the ordinary way, except that it is not necessary in changing the tension to remove it from the cradle.

Our new shuttle carrier is so constructed as to preclude the possibility of the shuttle jumping from its place while in rapid motion, with the shuttle-race open, thus avoiding the liability of permanent injury to the machine and danger to the operator, which has proven so objectionable to all sewing machines.

The work may be fed to or from the operator at will without making any change in the mechanical devices, thus enabling the operator to fasten ends or make double seams without turning the material, as must be done with all other machines.

Another distinct feature of "The Tibbles" is that the hand-wheel may be rotated in either direction and the sewing proceed continuously from the operator, thus enabling every one to start the machine as they have been accustomed.

For a time people demanded a cheap sewing machine, and manufacturers, who were quick to comprehend their customers' demands, used all diligence and energy to produce them at the lowest possible price, and under the heavy strain of low prices, convict labor has been brought into service in the manufacture of sewing machines, to supply those who demand them at low prices. This company, however, adopted as their motto, "Aut Optimus aut Nihil," which being translated reads, "The best or nothing;" and experience teaches us that the majority of ladies, after trying the cheap sewing machine, have concluded to pay a fair price and get "the best or nothing." We therefore employ the best mechanical skill, and hesitate at no expense that can improve the quality or workmanship of "The Tibbles."

This machine is entirely new and original in every respect, makes a perfect elastic lock-stitch, is artistic and pleasing in design, beautifully finished, absolutely noiseless, and is the lightest running machine ever constructed and possesses precisely those qualities which facilitate, simplify and lessen the labor of the operator, and renders it the friend of every lady and a desirable acquisition to every household. Every machine is fully warranted.

DES MOINES, IOWA.

UNIVERSITY OF DES MOINES,

PROSPECT PARK.

DES MOINES, IOWA.

Advantages of Location.

The University, on West Ninth Street, Prospect Park, has quiet and beautiful surroundings. The campus is adjacent to the park proper, which contains over sixty acres, a place of green trees, cool shade, running water and singing birds,—the most beautiful, picturesque and popular resort in the vicinity of Des Moines. It enjoys all the advantages of the city and country combined. The new central building just erected is one of the finest for educational purposes in the west.

It is the aim and purpose of the University to afford educational facilities of the highest order, and of such varied character as to meet the wants of all classes of students.

The courses of study are as follows:

- I. PREPARATORY COURSE.
- II. COLLEGE COURSES.

1. Classical.
2. Scientific.
3. Literary.

In addition to the above the Institution offers Normal, Business, and English courses. There are always classes in the common English studies in charge of qualified and experienced teachers. Music, Painting, Drawing, and Elocution taught by competent instructors.

Board and Rooms.

Good board will be furnished in North Hall at actual cost per week. In the same building rooms are provided for teachers and young lady students. The pleasant home life of the school is one of its valuable features. A high social and moral tone pervades the institution.

For catalogue and full information, address

CRAM'S UNIVERSAL ATLAS

OF THE WORLD.

Geographical, Astronomical and Historical,

Containing a complete series of maps of Modern Geography, exhibiting the world and its various political divisions as they are to-day.

—ALSO—

An elaborate series of Authentic Historical Maps showing the world's progress and development from the earliest times to the present, to which is added a brief history of Astronomy and a description of the geography of the heavens.

ILLUSTRATED

By numerous views and charts; the whole supplemented with valuable statistics, diagrams and a complete gazetteer of the United States.

The Atlas contains a larger and more varied collection of maps, diagrams, charts and other information relating to geography, history and astronomy than any similar work ever published.

THE UNIVERSAL ATLAS

Has been prepared to supply a long-felt want, at a moderate price, that would bring it within the reach of every one. This work will be the one most frequently consulted in every family, library or school room, and will be found to contain information not easily found elsewhere, and not found in any similar work.

The Best and Most Saleable Atlas Published.

McCLURE & BARNETT, Real Estate Dealers.

I am the Square Real Estate Agent, and we, as a firm, are representing to do business on the square

We have a large list of Des Moines property for sale or exchange as follows: Choice Vacant Lots, Nice Residence Properties, Fine Acre Tracts, joining city. Excellent to plat in to lots, also splendid Business Properties in the best part of the city. We have Good Homes for parties wishing to buy on monthly payments, which is a much better plan for parties desiring to remain in the city, than to rent, for, instead of paying a large amount of rent, receipts they will have received on payments, also have the advantage in the rise of property. We are always ready to show properties and will give our customers the benefit of any bargains that we have, and anyone living at a distance we will be glad to correspond with, and will, upon application, send to them by mail maps and plats of Des Moines property or suburban lots or tracts of land to plat for lots that we have for sale at a bargain on the Square.
